

BioSTEP Forum: Creating Networks for the Transition to a Bio-based and Circular Economy

Timing: Wednesday, 29 March 2017 (10.00 – 18.00)

Venue: [Mundo-b](#), Rue d'Edimbourg 26, 1050 Brussels (Ixelles), Belgium

The EU Bioeconomy Strategy is currently undergoing a review, which will be completed by mid-2017 and underpin the future orientation of the strategy. At the same time, policy-makers are discussing the links between the bioeconomy and the circular economy and whether both concepts should be combined in a single strategy.

The **objectives** of the BioSTEP Forum are:

- To present and discuss the results of the stakeholder engagement activities in BioSTEP and its value to the current policy discussions on the bioeconomy and the circular economy.
- To discuss how strategies can be developed in a participatory way, ensuring that the change of economic value chains, necessary for the transition to a bio-based and circular economy, is understood and supported by all stakeholders.
- To provide an opportunity for stakeholders to discuss barriers and opportunities related to the participatory development of bioeconomy and circular economy strategies.

The outcomes of the BioSTEP Forum will feed into the finalisation of a [policy paper](#) which will be published after the conference. The policy paper will provide policy-makers with recommendations for effective stakeholder and public engagement in a bio-based and circular economy.
